

Dan's Dive Shop Presents: A Bonne Terre Mine Experience

"Dive to the Center of the Earth". Bonne Terre Mine, a national historic site, is the world's largest fresh water dive resort. Water conditions remain constant with over 100 foot visibility, Sights include: mammoth architecture, guaranteed year round diving conditions. Cal falls, oar carts, scaffolding, grating, staircases, pillars, slurry pipes, the famed elevator shaft, and much more. Bonne Terre Mine is without a doubt one of the most unusual, beautiful, and relaxing full service dive resorts anywhere. Your accommodations located In the rolling foot hills of the Ozark mountains are elegant at the nearby 1909 Depot.

Bonne Terre offers new divers a very memorable experience.

All dives are conducted under the direct supervision of a certified Bonne Terre Mine dive guide. There are no exceptions.

The guides work on a volunteer basis and last years guides made it an amazing experience.

The Bonne Terre Depot was our base of operations with guest rooms and 2 detached train car suites. It was built in 1909 and

restored in 1989.

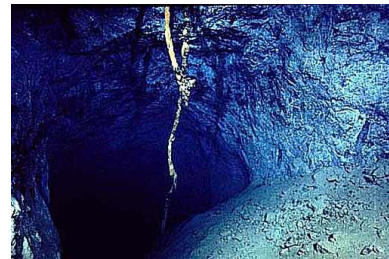

Even in April the water temperatures remain constant at 58 degrees Fahrenheit , far warmer than what the water would be like back home in Canada.

All dives will be conducted within the No Decompression Limits.

Utilizing Nitrox will ensure divers gain optimal bottom time (add \$10/dive). Air Tanks are included by the mine for each dive.

Higher Capacity tanks are also available for an additional cost.

If you're in the mood for something truly new, unique and fun, this is a great diving opportunity for you. This trip is open to certified divers of any certification rating.

We look forward to sharing the experiences of this trip with you.

We had an exceptional trip with great divers and great guides, so we know those who went last year will be returning, in addition to bringing their friends out too.

The diving is not difficult and perfect for new people, as there is no serious overhead environment that could compromise the ability to ascend in an emergency.

Book now, as space is limited for April 14, 15, 16, 17, 2011.

Total Cost Includes Friday and Saturday accommodations at the Depot and 5 guided dives in the mine for only \$400US. Divers have to get to Bonne Terre Missouri either by flight or carpooling. Carpooling can be arranged.
